

CURRICULUM VITAE – NIKHIL PATKAR

Name Nikhil Vijay Patkar

Designation Clinician Scientist and Professor, Scientific Officer 'G', Department of Hematopathology & Cytogenetics

Current Address Department of Hematopathology & Cytogenetics, Center for Cancer Epidemiology, ACTREC, Tata Memorial Centre, Mumbai

Phone +912227405000 Ext: 5789

Email nvpatkar@gmail.com, npatkar@actrec.gov.in

Website / GitHub Repo <https://molhemat.org>, <https://github.com/patkarlab>,

Degrees/Diplomates

Date	Degree	Place obtained
1996 - 2001	MBBS	Grant Medical College, University of Mumbai
2003 – 2006	MD	Armed Forces Medical College, University of Pune
2006	DNB	National Board of Examinations, New Delhi

Honors and Awards

1. **Wellcome Trust-DBT India Alliance Senior Fellowship (2021-Current).** This competitive fellowship scheme is co-funded by the Wellcome Trust, UK and the Department of Biotechnology, Govt of India for established senior career researchers. <https://www.indiaalliance.org/year-wise-awards/clinical-public-RC>
2. **Wellcome Trust-DBT India Alliance Intermediate Fellowship (2015-2021).** This competitive fellowship scheme is co-funded by the Wellcome Trust, UK and the Department of Biotechnology, Govt of India for intermediate career researchers. <https://www.indiaalliance.org/year-wise-awards/clinical-public-RC>
3. The **Charles Morehead Prize** in the year 2000 “for having passed the final MBBS examination with the highest number of marks in Clinical Medicine including Paediatrics in the University of Bombay” – Awarded by the University of Mumbai 2001
4. The **Dr. J.K. Mehta** prize in the year 2000 “for having passed the final MBBS examination with the highest number of marks in Clinical Medicine including Paediatrics in the University of Bombay” - Awarded by the University of Mumbai 2001

Research Funding:

1. Centre for Advanced Research on Innovation in Diagnosis, Prognostication, and Monitoring of Acute Myeloid Leukemia. Funding: Rs 14.50 Crores (~USD 1.7 Million) **Indian Council of Medical Research**, Govt of India
2. Rapid and Affordable Diagnostics for stratifying Childhood Acute Lymphoblastic leukemia (RADICAL). Funding: Rs 7.70 Crores (~USD 916,000) **Indian Council of Medical Research**, Govt of India
3. Acute myeloid leukemia and the clonal dynamics of relapse. Funding: Rs 4.7crores (~USD 650,000) **Wellcome Trust UK and Department of Biotechnology**, Govt of India (2021 Competition)

4. Comprehensive Molecular Characterisation of Pediatric Acute Leukemia with Whole Transcriptome Sequencing (WTS). Funding: Rs2.90Cr (~USD353,000) by **Illumina Inc – Medical Research Division, USA**
5. Applicability of Measurable Residual Disease Testing in Acute Lymphoblastic Leukemia by Next Generation Sequencing. Funding: USD 200,000 by **ThermoFisher Inc, Oncomine Global Grant**.
6. Acute myeloid leukemia and the dynamics of relapse. Funding: Rs 3.67crores (~ USD 550,000) **Wellcome Trust UK and Department of Biotechnology**, Govt of India (IECIII: Project No 163) – 2015-2021 (2014 Competition)
7. Unravelling the genomic context of relapse initiating cells in adult acute myeloid leukemia: Rs 1.45 Crores (~USD 185,300) by **Indian Council of Medical Research**, Govt of India – 2020-2024
8. Metagenomics (mNGS) for the rapid identification of pathogenic organisms causing sepsis in adult patients of acute leukaemia (AL) including those undergoing bone marrow transplantation (BMT). Funding: Rs1.69Cr (~USD 200,000) by **Lady Tata Memorial Trust** – 2021-2024

Professional Appointments (Current)

1. Clinician Scientist and Professor, Hematopathology, **Tata Memorial Centre**, Mumbai (7th Nov 2012 – current)

Professional Appointments (Past)

1. Visiting Faculty, Department of Computational Biology, Gavin Ha Lab, Fred Hutchinson Cancer Center, Seattle, USA (1st Apr 2025 to 31st August 2025)
2. Affiliate Faculty – Department of Laboratory Medicine, **University of Washington, Seattle**, WA, USA – 1st October 2019 – 30th June 2021
3. Visiting Scholar, Department of Genome Sciences, Shendure Lab, **University of Washington**, Seattle, USA (1st Sep 2016 to 31st Aug 2017)
4. Visiting Scholar, Department of Laboratory Medicine, **University of Washington & Seattle Cancer Care Alliance**, Seattle, USA (1st Sep 2016 to 31st Aug 2017)
5. Post Doctoral Fellow, **Hematologics Inc**, Seattle, WA (1st October 2011 to 20th Oct 2012)
6. Fellow in Molecular Haematology, Department of Clinical Haematology, **Christian Medical College**, Vellore (1st August 2009 to July 2011)
7. Fellow, Department of Clinical Haematology, **Christian Medical College**, Vellore (March 25 2009- 31st July 2009)
8. Fellow, Department of Immunohematology and Transfusion Medicine, **Christian Medical College**, Vellore (March 20 2008- March 24 2009)
9. Fellow (Senior Resident), Hematopathology laboratory, Department of Pathology, **Tata Memorial Hospital** (March 01 2007-Feb 28 2008)

International Collaboration

- A. Invited Member: **Classification Advancement Meeting (CAM) for hematopoietic neoplasms for the 6th edition of the WHO Classification of Myeloid and Lymphoid Neoplasms**. March 2026. This is a joint effort between former members of the World Health Organization (WHO) 5th edition Classification and the International Consensus Classification (ICC) of hematopoietic neoplasms. Part of the Acute Leukemia and Myeloid Malignancies Taskforce Groups.

Part of the core committee on Acute Myeloid Leukemia.

Manuscript Submitted:

Arber DA, Hasserjian RP, Loghavi S, Tzankov A, Akkari Y, Apperley J, Bennett JM, Borowitz MJ, Bueso-Ramos C, Calvo KR, Cargo C, Cazzola M, Cherian S, Chisholm K, Choi J, Churpek J, Cross N, Czader M, Daver N, Della Porta MG, DiNardo C, Döhner K, Duffield A, Duncavage E, Eisfeld AK, El Hussein S, Elghetany MT, Fend F, Foucar K, Garcia-Manero G, George T, Geyer J, Gianelli U, Godley LA, Gotlib J, Gujral S, Haferlach C, Haferlach T, Harrison C, Hochhaus A, Jabbour E, Jansen JH, Kanagal-Shamanna R, Kim A, Kim HJ, Kluco J, Komrokji R, Konopleva M, Kovach AE, Kvasnicka HM, Lane A, Lindsley RC, Löwenberg B, Malcovati L, Mascarenhas JO, Mathews V, Mullighan CG, Nardi V, Niemeyer C, Odenike O, Ogawa S, Onida F, Orazi A, Padron E, Passweg J, **Patkar N**, Patnaik M, Pemmaraju N, Proytcheva MA, Reichard K, Reiter A, Rudelius M, Saft L, Santini V, Seibert M, Sekeres M, Shimamura A, Solary E, Sotlar K, Stein E, Stock W, Stone RM, van de Loosdrecht A, Vannucchi AM, Walter M, Walter RB, Wang J, Wang SA, Wei A, Weinberg OK, Wlodarski M, Zeidan A, DeZern A, Döhner H, Tefferi A. **Recommendations for a Unified Classification of Myeloid Neoplasms and Acute Leukemias: Report of the Society for Hematopathology / European Association of Haematopathology Classification Advancement Meeting. Blood** 2026 (Submitted)

- B. Invited to co-author the **5th edition of the WHO Classification of Tumours - Haematolymphoid Tumours** by the International Agency for Research on Cancer, Lyon, France.

Part of the Myeloid Subcommittee for Myelodysplastic Syndromes and Acute Myeloid Leukemia.

The Classification is published in *Leukemia* in 2022

Khoury JD, Solary E, Abal O, Akkari Y, Alaggio R, Apperley JF, Bejar R, Berti E, Busque L, Chan JKC, Chen W, Chen X, Chng WJ, Choi JK, Colmenero I, Coupland SE, Cross NCP, De Jong D, Elghetany MT, Takahashi E, Emile JF, Ferry J, Fogelstrand L, Fontenay M, Germing U, Gujral S, Haferlach T, Harrison C, Hodge JC, Hu S, Jansen JH, Kanagal-Shamanna R, Kantarjian HM, Kratz CP, Li XQ, Lim MS, Loeb K, Loghavi S, Marcogliese A, Meshinchi S, Michaels P, Naresh KN, Natkunam Y, Nejati R, Ott G, Padron E, Patel KP, **Patkar N**, Picarsic J, Platzbecker U, Roberts I, Schuh A, Sewell W, Siebert R, Tembhare P, Tyner J, Verstovsek S, Wang W, Wood B, Xiao W, Yeung C, Hochhaus A. **The 5th edition of the World Health Organization Classification of Haematolymphoid Tumours: Myeloid and Histiocytic/Dendritic Neoplasms** *Leukemia*. 2022 Jul;36(7):1703-1719.

Author on the following chapters:

- 2.2.3.10 Myelodysplastic neoplasm, hypoplastic
- 2.3.1.9 Acute myeloid leukaemia with *NUP98* rearrangement
- 2.5.2.3 Mixed-phenotype acute leukaemia with *KMT2A* rearrangement
- 2.2.3.2 Myelodysplastic neoplasm with low blasts and isolated 5q deletion
- 2.2.3.3 Myelodysplastic neoplasm with low blasts and *SF3B1* mutation
- 2.2.3.5 Myelodysplastic neoplasm with increased blasts
- 2.3.1.3 Acute myeloid leukaemia with *RUNX1-RUNX1T1* fusion
- 2.3.1.5 Acute myeloid leukaemia with *KMT2A* rearrangement
- 2.3.1.6 Acute myeloid leukaemia with *DEK-NUP214* fusion
- 2.3.1.10 Acute myeloid leukaemia with other defined driver gene alterations
- 2.3.1.11 Acute myeloid leukemia with myelodysplasia-related cytogenetics
- 2.4.1.2 Myeloid neoplasm post cytotoxic therapy

- C. Invited to participate by the **Association for Molecular Pathology** as part of the working group on **Recommendations for Molecular MRD Monitoring in Acute Myeloid Leukemia (Joint Guidelines by College of American Pathologists, Association for Molecular Pathology and American Society of Hematology)**. *Draft in Preparation*

- D. Invited Member **Leukemia stem cell assessment at diagnosis and in remission in patients with acute myeloid leukemia**: recommendations and roadmap from the **ELN-DAVID MRD working party**. Reuvekamp T, Feuring M, Freeman S, Ecker V, Jargosch M, Haaksma LH, Buccisano F, Came N, Chen X, Depreter B, Guzman M, Hobo W, Lam WK, Maurillo L, McCarthy N, Ngai LL, Ofran Y, **Patkar N**, Plöger S, Silva J, Cherian S, Szymczak D, Tembhare P, Venditti A, Vergez F, Vyas P, Walter R, Westerman D, Wierzbowska A, Ikoma-Colturato M, Kern W, Cloos J, Roumier C, Plesa A. Leukemia stem cell assessment at diagnosis and in remission in patients with acute myeloid leukemia: recommendations from the ELN-DAVID AML MRD working party. *Manuscript in submission*
- E. Invited Member: Adapted Resource and Implementation Application (ARIA) Guide. Acute Myeloid Leukemia Working Group. Joint Initiative by International Society of Paediatric Oncology (SIOP) and St Jude Global.
- F. Appointed as a member of the International Affairs Committee, **Association for Molecular Pathology, USA**
<https://www.amp.org/about/committees/international-affairs-committee/>

Certifications:

Post Graduate Programme in Machine Learning and Artificial Intelligence, IIIT Bangalore with Specialisation in Generative AI, October 2024 Batch, Graduated in 2025.

National Committees:

1. Working Group Member, National Genomics Data Grid (NGDG), Department of Biotechnology, Govt of India
2. Committee Member: National Mission Program on Cell & Gene Therapy (NMCCT), Department of Biotechnology, Govt of India
3. Member, Technical Expert Committee, Cancer Research Program, Department of Biotechnology, Govt of India

Patents:

1. Method for Sequencing Pre-Selected Genomic Regions by Asymmetrically Looped Strand-Biased Oligonucleotides and Hemi-Nested PCR (IPA no. : 202321020843) .
2. A method and a kit for generating nucleic acid for target capture. (PCT Patent Filed: PCT/IN2025/051311 and published: publication number WO 2026/146514)

Editorial Board Responsibilities:

1. Journal of Clinical Pathology, Editorial Board Member (<https://jcp.bmj.com/pages/editorial-board>)
2. Molecular Diagnosis & Therapy, Editorial Board Member (<https://link.springer.com/journal/40291/editorial-board>)

Institutional Committees:

1. Member, Tata Memorial Centre, Research and Development Cell
2. Member, ACTREC, TMC - Intellectual Property Rights (IPR) Cell
3. Member, Artificial Intelligence-Machine Learning & Data Science Working Group, ACTREC
4. Member, Research Mentors Group – Tata Memorial Centre

Educational Outreach:

1. **Observers and Trainee Mentorship:** The department of hematopathology annually hosts several observers (clinical and basic research) from all over India and neighbouring countries. These observers under my guidance are taught basic aspects of hematopathology, molecular pathology and laboratory techniques pertinent to clinical diagnostics. I am also an AMP mentor.
2. **Meetings & Workshops Organized in ACTREC, Tata Memorial Centre:** I have organized several workshops and CME courses in ACTREC. These include Evidence-Based Meetings in 2015 and 2018 for Molecular Hematopathology and Workshops on Bioinformatics. We also hold annual recurring workshops on basic and advanced molecular pathology.
 - a. Organizing Secretary “Basic Workshop on Molecular Hematopathology” 14-16 Sep 2023, ACTREC, Tata Memorial Centre
 - b. Organizing Secretary “Genomics Workshop in Molecular Hematopathology” 24-28 Sep 2024, ACTREC, Tata Memorial Centre
3. **Meetings Coordinated with Scientific Organizations:** At the national level, I have participated and, at times, conducted workshops and CMEs with national bodies like Haematocon (National Haematology Society Annual Congress), Molecular Pathology Association of India, and State Pathology Societies.

Societal Outreach and Contribution to COVID-19:

1. Community Testing: Contributed to COVID-19 testing for ACTREC, as well as volunteered to test thousands of community samples during the pandemic. We have sequenced close to 1000 COVID-19 genomes during the first and second waves of the pandemic.
(<https://pubmed.ncbi.nlm.nih.gov/35685574/>)
2. I was a member of the ACTREC COVID-19 Response Team and was responsible for establishing molecular diagnostics and related coordination during the COVID-19 pandemic. I also coordinated data with authorities from local municipal, state, and national bodies such as Navi Mumbai Municipal Corporation, Maharashtra COVID-19 Cell, Department of Biotechnology.

National Guidelines:

Indian Council of Medical Research Subcommittee on Acute Lymphoblastic Leukemia: Consensus Document on Treatment of Acute Lymphoblastic Leukemia (Role as Molecular Pathologist): Ongoing

Indian Council of Medical Research: Standard Operating Procedures for Immunophenotyping of Hematolymphoid Neoplasms (http://icmr.nic.in/About_Us/Guidelines.html)

Research:

Complete list of 100+ papers can be seen here:

1. Genomics in haematological malignancies

My laboratory develops molecular and computational methods for the diagnosis and prognostication of blood cancers, with a sustained focus on acute myeloid leukaemia (AML) and B-lineage acute lymphoblastic leukaemia (B-ALL). We have built a suite of laboratory-developed genomic assays, including NARASIMHA, a targeted RNA-sequencing assay for the detection of chimeric fusion transcripts (Blood Cancer Journal 2020), and were among the first groups to apply machine learning to genomic prognostication in leukaemia, deriving genetic scores predictive of outcome in NPM1-mutated and RUNX1::RUNX1T1 AML (Blood Cancer Journal 2019; Leukemia & Lymphoma 2020). Using large,

uniformly treated cohorts, we have generated real-world evidence that tests and refines international frameworks for leukaemia classification and risk stratification. In AML, this includes an independent validation of the ELN 2022 genetic risk model with a proposed refinement of its intermediate-risk category (JCO Global Oncology 2026) and characterisation of KMT2A-PTD AML as behaving like a myelodysplasia-related entity (Journal of Clinical Pathology 2026). In paediatric B-ALL, we reclassified over 500 uniformly treated children according to the WHO 2022 genomic subtypes and derived a three-tier genomic risk model incorporating 15 subtypes and IKZF1 deletion, which stratifies outcome independently of, and in combination with, MRD-directed clinical risk assignment (JCO Global Oncology 2026). Current work extends this programme along three lines: (i) SPARSH (Subtype Prediction via Adaptive Recognition from Sparse Hematological data), a neural-network classifier that uses nanopore-derived DNA methylation for rapid subtyping of leukaemia; (ii) adaptive-sampling whole-genome sequencing on Oxford Nanopore platforms for single-assay genomic diagnosis of acute leukaemia and multiple myeloma; and (iii) integration of these tools into open-source clinical bioinformatics pipelines (github.com/patkarlab).

2. Measurable residual disease detection in acute leukaemia

A second strand of my research addresses the detection and clinical interpretation of measurable residual disease (MRD) in AML. My group led early clinical studies directly comparing multiparameter flow cytometry with error-corrected, panel-based next-generation sequencing for MRD assessment, establishing the complementary prognostic value of the two approaches and defining the behaviour of NPM1-mutant and other molecular markers after induction (Oncotarget 2018; Frontiers in Oncology 2019; Leukemia 2021). This has been extended to a head-to-head comparison of leukaemic stem cell-based flow cytometry, conventional flow cytometric MRD, and NGS-based MRD in a large adult AML cohort (manuscript under review). Ongoing work aims to push the sensitivity and resolution of MRD detection: development of duplex sequencing assays for AML MRD, together with computational methods that reduce sequencing redundancy by retaining informative singleton reads; and single-cell DNA and protein sequencing (Mission Bio Tapestry) to resolve clonal architecture and residual leukaemic stem cell populations at the MRD stage.

Platform Presentations:

1. Machine Learning Identifies Gene Mutations and Variant Allele Fractions that Refine the 2022 European LeukemiaNet Risk Stratification for Acute Myeloid Leukemia. **Oral Presentation** at the **66th American Society of Hematology Annual Meeting and Exposition**. San Diego, USA
<https://ash.confex.com/ash/2024/webprogram/Paper193534.html>
2. Molecular Measurable Residual Disease Detection in Acute Myeloid Leukemia Using Error Corrected Next Generation Sequencing. Nikhil Patkar and colleagues. **Oral Presentation** at the **62nd American Society of Hematology Annual Meeting and Exposition**.
<https://ash.confex.com/ash/2020/webprogram/Session19628.html>
3. Ultradeep Error Corrected Next-generation Sequencing (NGS) of ABL1 Kinase Domain Mutations in BCR-ABL1 Positive Malignancies. Nikhil Patkar and colleagues. **Oral Presentation** at **Annual Meeting of Association for Molecular Pathology AMP 2018**, San Antonio, Texas, USA
<https://amp18.amp.org/program/program/cancer-oncology1/>

Professional Memberships:

1. Treasurer, Molecular Pathology Association of India
2. International Affairs Committee Member, Association of Molecular Pathology

Conferred Orations:

- a. Dr. J. G. Parekh Oration Award for 2022-23, 46th Annual Conference of Mumbai Hematology Group

- b. Dr. M.T. Paithankar Oration (Vidharbha Pathology Society) for 2023, 25th November 2023, Nagpur, Maharashtra

Reviewer for Journals:

1. Acta Haematologica
2. Annals of Hematology
3. BMC Cancer
4. Blood
5. British Journal of Haematology
6. Cancer Cell International
7. Cancer Genetics
8. Clinical Lymphoma, Myeloma and Leukemia
9. eClinicalMedicine (Lancet)
10. Experimental Hematology & Oncology
11. Frontiers in Cell and Developmental Biology
12. Haematologica
13. Hematological Oncology
14. Hematology
15. Indian Journal of Cancer
16. Indian Journal of Medical Pediatric Oncology
17. Indian Journal of Haematology and Transfusion Medicine
18. Indian Journal of Orthopedics
19. Indian Journal of Medical Research
20. International Journal of Laboratory Haematology
21. Journal of Applied Microbiology
22. Journal of Molecular Diagnostics
23. Leukemia
24. Leukemia Res
25. Mediterranean Journal of Hematology and Infectious Diseases
26. Nature Communications
27. Oncology Letters
28. Scientific Reports
29. The Journal of Applied Laboratory Medicine
30. The National Medical Journal of India

Reviewer for Grants:

1. Indian Council of Medical Research – Small Grant, Government of India
2. Indian Council of Medical Research – Intermediate Grant, Government of India
3. Wellcome Trust DBT India Alliance, Government of India: Early Career Fellowships for Basic Researchers
4. Wellcome Trust DBT India Alliance, Government of India: Early & Intermediate Career Fellowships for Clinicians and Public Health Researchers
5. Department of Biotechnology (DBT), Government of India
6. KWF Kankerbestrijding/KWF Dutch Cancer Society: BOOST programme (Bridging Obstacles for Optimal model use via Shared Technical Expertise)

International Talks:

- a. Advances in Hematopathology and Leukemia. **Medlab Middle East Congress, 6th to 9th February 2023, Dubai**
- b. “Hematolymphoid Neoplasms” OncoPathology & 45th EAFO OncoPathology Seminar X **EAFO Basic Medical Courses: Moscow Russia. 29 July – 12 August, 2022**
 1. Evaluation of MRD in ALL
 2. Evaluation of Bone Marrow Aspirate

3. Diagnostics in ALL
 4. Role of NGS in Myeloid Malignancies and AML
 5. Error Corrected Sequencing for MRD detection in AML.
- c. Error Corrected Sequencing to detect MRD in AML. **The International Congress of BMT 2021 S Korea (Virtual) 26 -28 August 2021**

National Talks including CME presentations for Educational Activities (selected talks from 2018-2025):

- a. **17th TCS Annual Conference and Workshops (Faculty): Measurable Residual Disease in Acute Myeloid Leukemia TCS 2025** Date: 30 October 2025 Location: Kolkata
- b. **Tattva 2025 - Molecular Hematology and NGS in Hematological disorders (Faculty)** Date: 11 October 2025 Location: Kochi
- c. **CMC Vellore Alumni CME - How do we improve the current classification of Acute Myeloid Leukemia? National Speaker** Date: 14 November 2025 Location: CMC Vellore
- d. **International Conference on Integrative Computational Methods in Public Health, IIT Bombay (Speaker): Genomics Approaches for Diagnosis and Monitoring of Blood Cancers** Date: 10 December 2025 Location: IIT Bombay, Mumbai
- e. **50th Annual Meeting of the Indian Society of Human Genetics (ISHG-2026) - Invited Talk: Artificial Intelligence Driven Rapid Diagnosis of Acute Leukemia** Date: 5-7 February 2026 Location: PGIMER, Chandigarh
- f. **13th Annual Conference of the Molecular Pathology Association of India (MPAICON 2026) - Faculty and Speaker** Date: 26-28 February 2026 Location: Tata Medical Center, Kolkata. **Artificial Intelligence Driven Rapid Diagnosis of Acute Leukemia. Library Preparation in Next Generation Sequencing**
- g. **Cancer Connect 2.0 - Faculty: AML classification: What's New? (virtual)** Date: 6-8 March 2026 Location: Holiday Inn, Aerocity, New Delhi
- h. **Advances in precision oncology - Liquid Biopsy & MRD. Unlocking Precision Medicine: The Power of Comprehensive Genomic Profiling to be held in Mumbai** on Friday, 12 April 2024 .
- i. **NGS and its utility in Haematological Neoplasms. 9th Molecular Pathology Workshop** April 2024 organized by **Tata Medical Center, Kolkata**. Friday, 19th April 2024
- j. **Optimal Diagnostic Work Up Of AML, Role Of NGS. Mid Term PHO CME 2024**, scheduled to take place on 13th July 2024 at, **National Cancer Institute, Nagpur**.
- k. **Flow Cytometry in Chronic Lymphoproliferative Disorders. 16th November, 2024. A.J. Institute of Medical Sciences and Research Centre, Mangalore**
- l. **AML - Genomic landscape and genetic predisposition. 5th Annual Conference of the Indian Society of Haematology & Blood Transfusion (ISHBT) " Haematocon 2024"** to be held from 07th – 10th November 2024
- m. **Next Generation Sequencing in Myeloma. January 10th to 12th, 2025. Indian Myeloma Congress 2025**
- n. **Method Development in Next Generation Sequencing. February 13th to 15th, 2025. 12th Annual Conference of the Molecular Pathology Association of India (MPAICON 2025). CMC Vellore, TN**
- o. **Speaker for Selecting and investigating for an underlying germline predisposition disorder in AML/ MDS- A case based approach. Department of Hematology at All India Institute of Medical Sciences, New Delhi National Hematology Update-XIII** 2nd Feb 2025
- p. **Two talks: Library Preparation & Basics of Panel Designing. 7th Annual Conference of the Neuropathology Society of India (NPSICON 2025), AIIMS, New Delhi, from 22nd February 2025.**

- q. Next Generation Sequencing in Hematopathology, 18-19 April 2024, **Tata Medical Centre Kolkata**
- r. Making Genomics Accessible for Blood Cancers: TMC approach **6th Indian Cancer Genetics Conference & Workshop, 23-25 February 2024**, ACTREC, Tata Memorial Centre, Navi Mumbai.
- s. **11th Annual Conference of the Molecular Pathology Association Of India (MPAI) “ MPAICON 2024”** Genomic Landscape of AML 17 February 2024
- t. **11th Annual Conference of the Molecular Pathology Association Of India (MPAI) “ MPAICON 2024”** NGS Workshop: Library Preparation and Panel Design. 16 February 2024
- u. **11th Annual Conference of the Molecular Pathology Association Of India (MPAI) “ MPAICON 2024”** Meet the Professor 18 February 2024
- v. **Dr. M.T. Paithankar Oration (Vidharbha Pathology Society)** for 2023, 25th November 2023, Nagpur, Maharashtra
- w. **Cytogenetics and Molecular Biology in Malignant Hematology.** Phocon 2023 24th November 2023
- x. **Role of Next Generation Sequencing in Acute Leukaemias** Cancer Institute (W.I.A.), Adyar, Chennai 24th November 2023
- y. **Workshop on NGS in Hematopathology.** 64th Conference of ISHBT Bhubaneshwar 2nd-5th November 2023. Workshop Lead Faculty
 - a. Introduction to the Workshop
 - b. Basics of Panel Design in NGS
 - c. Planning a Sequencing Experiment: Library Preparation & Sequencing
- z. **MRD assessment in AML: Data from India** Mid Term Conference of Mumbai Hematology Group. 29th September 2023
- aa. **NGS in Plasma Cell Neoplasms.** XXV Indian Association of Pathologists International Division Annual CME, 9th September 2023
- bb. **How do molecular tests help in getting a precise diagnosis in ALL?** ALL Practice Update, Rajiv Cancer Cancer Institute & Research Centre, New Delhi. 25th August 2023
- cc. **Haematology Masterclass Conference** on 21st May 2023 at Chancery Pavilion, Bangalore, conducted by International Hematology Consortium (IHC)
- dd. Represented Tata Memorial Centre in National Technology Week, Government of India, from 11-14 May 2023 on **Innovative and Cost-Effective Molecular Evaluation of Blood Cancers**, Pragati Maidan, New Delhi
- ee. Max Cancer Congress 2023, Hematology update. **Genomic Evolutionary Patterns of Hematological Malignancies and its Clinical Implications.** Hotel Taj Palace, New Delhi 30th April 2023
- ff. Molecular Pathology Association of India Annual Conference. **Molecular MRD Detection in Acute Myeloid Leukemia.** 16-18 February 2023. Lucknow India
- gg. Molecular Pathology Association of India Annual Conference. **Error Corrected Sequencing in Acute Myeloid Leukemia.** 6-7th August 2022. Ahmedabad India
- hh. **Molecular Diagnostic Testing in Hematologic Cancers.** CME on Molecular Pathology Approach to Cancers. 3rd December, 2021 Armed Forces Medical College, Pune
- ii. **Next Generation Sequencing.** 62nd Annual Conference of the Indian Society of Haematology & Blood Transfusion (HAEMATOCON 2021). 10th November 2021.
- jj. **Molecular techniques, pitfalls and quality issues in Acute Leukemia.** 61st Annual Conference of the Indian Society of Haematology & Blood Transfusion (HAEMATOCON 2020). 21st November 2020
- kk. **Molecular Interrogation of AML and MDS.** ISMPO Conference: Molecular Profiling Shaping the Treatment Paradigm in Hematologic Malignancies 19th Feb 2021

- ll. **Panel Discussion, Diagnosis & Monitoring of CML**– Legendary Oncology Series (DALOS) | 7th & 8th November 2020 Virtual
- mm. **Next Generation Sequencing and its Role in Hematopathology.** Annual Meeting of Karnataka Chapter of Pathology & Microbiology KAPCON 2020, 4th October 2020
- nn. **Measurable Residual Disease in Acute Myeloid Leukemia.** 26th September, 2020 Hematology Cancer Consortium, Virtual Meeting.
- oo. **Next Generation Sequencing - Applications to Myeloproliferative Neoplasms** 17th July 2020 Eastern Hematology Group, Virtual Meeting.
- pp. **Incorporating mutation testing in MDS management.** 60th Annual Conference of the Indian Society of Haematology & Blood Transfusion (HAEMATOCON 2019). 7th – 10th November 2019 in Taj Palace, New Delhi.
- qq. **How does next generation sequencing help in prognostication and monitoring of acute myeloid leukemia?** 8th Annual Conference of Molecular Pathology Association of India, MPAICON 2020 10th to 12th January 2020
- rr. **What is it and what do I do about it?(MRD in Acute Myeloid Leukemia)**– 19th Annual International Conference “RGCON 2020” 7th February to 9th February 2020, at New Delhi, India
- ss. **Newer tools in AML for risk stratification and response assessment-NGS** Pediatric Leukemia and Lymphoma CME organized by the Division of Pediatric Hematology, Oncology and BMT, Sir Ganga Ram Hospital 8th and 9th February 2020
- tt. **Why do patients with similar cancers have different outcomes?** Explorer Series event in Chandigarh on 23 December (Monday) at IISER Mohali organized by Wellcome Trust/DBT India Alliance.
- uu. **Role of next generation sequencing in myeloid malignancies: Laboratory perspective.** 18th August, 2019 10:30 - 10:45 AM Hematology Cancer Consortium, Grand Hyatt, Kochi from 16-18 August, 2019.
- vv. **Sample Preparation and Workflow in Lab for NGS.** Best of ASCO 2019 Conference at Mumbai 28th – 30th June 2019
- ww. **Minimal Residual Disease Assessment using Ultradeep Next Generation Sequencing.** 7th Annual MPAL Conference 2019 12th -13th January 2019
- xx. **Detection of MRD in AML using Next Generation Sequencing** – 1st March 2019. Clinical Genomics in Molecular Haemato-Oncology (EBM Module, Tata Memorial Centre)
- yy. **Informatics Programs and How to Interact with them** – 28th Feb 2019. Clinical Genomics in Molecular Haemato-Oncology (EBM Module, Tata Memorial Centre)
- zz. **Sequencing - Where do we stand in routine diagnostics?** 45th Annual Conference of KCIAPM. (Karnataka State Chapter IAPM) 6th October 2018
- aaa. **Theranostics in hematolymphoid neoplasms-** 45th Annual Conference of KCIAPM. (Karnataka State Chapter IAPM) 6th October 2018
- bbb. **Next Generation Molecular Diagnostics in Haemato-Oncology.** 4th May 2018. Precision Medicine in Oncology NCBS, Bangalore
- ccc. **Next Generation Sequencing for Haematological Malignancies.** 59th Annual Conference of The Indian Society of Haematology and Blood Transfusion. October 25th to October 28th, 2018. Grand Hyatt Kochi Bolgatty, Kerala
